

Wild Well Control, Inc.

HSEQ Management System

Title: HSEQ Policy Statement

Wild Well is committed to providing impeccable service globally, delivering cutting edge training, providing engineering solutions, and the continual improvement of our business processes. Implementation of this policy will be demonstrated through the development of HSEQ objectives. In order to achieve these objectives, Wild Well is committed to:

- The Executive Management being accountable for the effectiveness of the HSEQ Management System
- Providing safe and healthy working conditions for the prevention of work-related injury and ill health
- Being the world’s leader in delivering well control and engineering solutions to our clients
- Ensuring our supply chain performs according to our requirements
- Fulfilling our HSEQ regulatory compliance and other legal obligations
- Eliminating hazards and reducing health and safety risks
- Protecting the environment by prevention of pollution
- Implementing and maintaining processes for consultation and participation of our workers
- Initiatives with a focus on continual improvement

Moreover, the principles that are essential to the success of our HSEQ Management System are simply:

- Nothing is more valuable than the health and safety of our employees
- All incidents are preventable
- No environmental damage is acceptable
- Everyone has “Stop Work Authority” and is expected to use it
- Honor our Shared Core Values
